RE: Kewaunee Power Station - License Renewal

Dear Mr. Daily:

We highly value the Kewaunee Power Station as an important part of our community. The former owners, Wisconsin Public Service, and now Dominion Energy Kewaunee, have been good neighbors to the people of Manitowoc County since the plant began operating. Throughout that time, the plant has performed at the highest levels of quality. KPS owners and operating staff have demonstrated an ongoing and sincere concern for the well being of Northeastern Wisconsin communities as well as the entire State of Wisconsin.

I am pleased to take this opportunity to offer these thoughts in my unequivocal support of their application for license renewal.

Sincerely,

Bob Ziegelbauer
State Representative
25th Assembly District
