SUBJECT: YUCCA MOUNTAIN - REQUEST FOR ADDITIONAL INFORMATION RE:
LICENSE APPLICATION (SAFETY ANALYSIS REPORT SECTION 5.1)

Dear Mr. Williams:

By application dated June 3, 2008, the U.S. Department of Energy (DOE) requested the U.S. Nuclear Regulatory Commission (NRC) staff approval of a construction authorization.

NRC staff has reviewed the information provided in your submittal and determined that additional information is required in order to complete its review. Questions in the enclosed request for additional information (RAI) were emailed on October 31, 2008, and discussed in a telephone call with Mr. Michael Ulshafer, et al., of your staff on November 5, 2008. During the discussion, DOE agreed to provide a response to this RAI by December 10, 2008.

NRC staff considers that timely responses to RAIs help ensure sufficient time is available for staff review to meet its 10 CFR Part 2 schedule requirements and contribute toward the NRC's goal of efficient and effective use of staff resources. If circumstances result in the need to revise the requested response date, please contact me at (301) 492-3193.

Sincerely,

/RA/
