Dear Chairman Klien, (other commissioners: Gregory B. Jaczko; Peter B. Lyons)

This letter is to request that License Applications IW023 and XW013 be denied. These permits would allow a private corporation; Energy Solutions, Inc. to transport and process nuclear waste in Tennessee.

Tennessee is biologically diverse and rich in natural resources. Radioactive nuclear waste contaminates everything - the air, the soil, the water, plants, animals and people. I see no benefit to the people of Tennessee by allowing European or any other nuclear waste to be brought into our state to be processed and stored here.

Respectfully,

Annette DuChemin
