Lancaster, South Carolina 29720

SUBJECT: NRC RESPONSE TO NAMCO CONTROLS LETTERS IN RESPONSE TO NRC
INSPECTION REPORT 99900378/2008-201

Dear Mr. Gould:

Thank you for your June 23, 2008, and August 8, 2008, letters in response to the Notice of Nonconformance (NON) and Violation (NOV) that was discussed in the subject U.S. Nuclear Regulatory Commission (NRC) inspection report (IR) for an NRC staff inspection at the Namco Controls facility in Lancaster, South Carolina. The NRC inspection was a limited scope inspection which focused on selected portions of Namco Controls' Quality Assurance program and 10 CFR Part 21 program. NRC inspection reports are not intended to endorse or approve quality assurance or 10 CFR Part 21 programs.

We have reviewed your letters and find that it is responsive to the NONs and NOVs documented in IR 99900378/2008-201. We have no further questions or comments at this time and may review the implementation of your corrective action(s) during a future NRC staff inspection to determine that full compliance has been achieved and maintained.

In accordance with 10 CFR Part 2.390, "Public inspections, exemptions, and requests for withholding," a copy of this letter will be placed in the NRC's Public Document Room. If you or your staff has any questions regarding this matter, we will be pleased to discuss them with you. Please contact Aida Rivera-Varona at (301) 415-4001 or via electronic mail at Aida.Rivera-Varona@nrc.gov, if you have any questions or need assistance regarding this matter.

Sincerely,

/RA/

John A. Nakoski, Chief
Quality and Vendor Branch 2
Division of Construction Inspection
& Operational Programs
Office of New Reactors
