SUBJECT: SUMMARY OF OCTOBER 14, 2008, CATEGORY 2 PUBLIC MEETING
WITH THE NUCLEAR ENERGY INSTITUTE TO DISCUSS HEALTH
PHYSICS ISSUES FOR NEW REACTORS

On October 14, 2008, the Nuclear Regulatory Commission (NRC) staff met with members of the Nuclear Energy Institute (NEI) to discuss new reactor health physics issues. Enclosure 1 lists the meeting attendees.

A public meeting notice was issued on October 1, 2008, and was posted on the NRC's external (public) web page (Agencywide Document Access Management System (ADAMS) Accession No. ML082750266). The notice included the meeting agenda, which was also available as a handout at the meeting. The discussion included:

- NEI 08-08 Template to Address 20.1406 Operational Requirements

NRC and industry representatives discussed the status of the NEI template for addressing the 10CFR20.1406 operational requirements developed by NEI to support COL applications. The staff and industry discussions focused on clarification of the NRC staff's editorial and technical comments provided to NEI during a September 16, 2008 public meeting (ML082660255). NEI stated that they would evaluate the comments and based on the discussion provide an updated schedule for submission of the revised NEI 08-08 template.

Comments on NEI 08-08, rev 0, "Generic FSAR Template Guidance for Life Cycle Minimization of Contamination" (ML082660100) can be found in ADAMS at accession number ML082620273
