As specified in my letter to NRC dated November 17, 1988, the WBN unit 2 completion schedule has been reassessed. Further review of activities required for unit 1 operation has identified additional items that are not required to support unit 1 licensing.

Enclosure 1 lists the Inspector follow-up items that are not required to address programmatic issues and do not support the unit 2 layup program.

If there are any questions, please telephone G. R. Ashley at (615) 365-8527.
