Subject: status of  
decommission  
(NOTE: This will be used as the  
Documents Title in ADAMS)

Summary: I spoke with the RSO about the RAI and the current status of the decommissioning effort. The RSO informed me he had gathered all the information that he thought was necessary and had to compile it into report form. He further stated that due to a change in management and plant closure that he had been pulled off the project for the time being but should have it done by January 2009. The RSO also told me that some of the buildings previously used for the license were being sold to Bayer. I stressed that they should submit the information requested as soon as possible.
