

## October 2 Letter

(RAI Number 13.03-20, C) Site 3

13.03-20.C Based on the text in NUREG-0654 “..... identify radiological laboratories and their general capabilities and expected availability to provide radiological monitoring and analysis services....”, this information is expected to be provided in the Emergency Plan.

(RAI Number 13.03-22, D) Site 5

13.03-22.D In order to document the implementation that follow-up messages can and will be sent as stated in the BLN Emergency Plan, it is recommended that a summary of the response be provided in the Plan. A commitment for when procedures will be available is needed for this RAI response.

(RAI Number 13.03-23, C) Site 6

13.03-23.C – TBD

(RAI Number 13.03-24, A, B, D) Site 7

RAI 13.03-24 A. The response in A addresses who is responsible. The information in the response to B addresses the information necessary to understand the dissemination to the public, as stated in NUREG-0654. A summary of this information in the BLN Emergency Plan is recommended. A commitment of when the information will be developed and ready for review by NRC and distributed to the public is necessary.  
RAI 13.03-24 B. Summarizing the information in this response in the BLN Emergency Plan provides is recommended.
