**PR 51**  
**(73FR59547)**  
**(73FR59551)**

I am requesting the NRC stop rubber-stamping the dangerous nuclear industry waste policies and take steps to eliminate the further creation of nuclear waste until such time as we have developed technology to deal with this waste. Of course by pursuing renewables and conservation we can phase out nuclear energy production completely.

Please:

(a) revoke the its Waste Confidence Decision and

(b) require more robust storage of irradiated fuel already at operating and closed reactors.

Tom Ferguson
