All-

The supplemental license Renewal SER for Oyster Creek has NOT been published. The draft document has been completed and is in review. I do not have an expected date to publish as a NUREG.

Donnie Ashley

Subject: FW: Question from Brooke Poole, OCAA

Dear Donnie,

I understand you are the PM for Oyster Creek.

Can you tell me has staff published the supplemental license renewal SER for Oyster Creek addressing the cumulative usage factor associated with residual stress in the recirc nozzles? Thanks.

Yours truly,

Donald Chung

Donald,
Donnie Ashley is the PM for Oyster Creek's License Renewal. He would be better able to answer your question. If you still need information after talking to him, please let me know and I'll see what I can do.

Don,

Can you find the answer to this?

Thanks,
Trent

Subject: Question from Brooke Poole, OCAA

Her Question: Has staff published the supplemental license renewal SER for Oyster Creek addressing the cumulative usage factor associated with residual stress in the recirc nozzles? She does not believe that the staff has but wants to verify. Let me know what you find out?
