Subject: OC 1R22 License Renewal Scope

Pete, a couple questions regarding OC's upcoming outage scope.

- 1) Has SER Commitment 27, Item (18) been implemented?
3-D Finite Element Analysis of drywell shell, using modern methods and current shell thickness data.
- 2) Has SER Commitment 24, Item (2) been implemented?
One-time UT of "B" Isolation Condenser shell, below the water line.
- 3) Has SER Commitment 44 been implemented?
Metal Fatigue Monitoring program, enhanced to use FatiguePro.
- 4) Are there any 1R22 outage activities related to SER Commitment 44?

Please feel free to respond via phone, e-mail, or your web-based IMS database.

Thanks
John Richmond
