Subject: RE: Yucca Mountain dust sample results

Thanks, Zell. I just got your message this morning as we've been iced out of work for the last couple of days! I haven't ever seen ice like this before in San Antonio. It's unreal!

The sample numbers for those you provided to us were:

SPC00574982	10.5 grams, unsized, ESF 8+61 to 8+62.7
SPC00574983	10.5 grams, unsized, ESF 12+63.2 to 12.65A
SPC01030803	11.0 grams, unsized, surface sample
SPC01030805	10.3 grams, unsized, surface sample

I greatly appreciate you sharing your data! I'd be happy to talk with you about the status of our program here. If you're in today, feel free to give me a call this afternoon (probably after 2pm Central) or tomorrow morning.

Cheers-
Miriam

Hi Miriam: I left you a voice message this morning about sample numbers.
Also, just finished uploading the final version of my MRS paper which I've attached here.
