Subject: FW: Igneous Activity in DOE LA Table of Contents vs SERs and YMRP chapter heads - VERSION2

Dear All:
I revised the attached list (be happy if you didn't see ver.1, and thanks to those who discussed that with me). It contains where I see that "igneous matter" occurs in the expected contents of DoE's Licensing Application. I think I have unpicked most of the LA content -YMRP chapter inter-connections now. It's quite complex in detail. The main blocks relating to DIRs1&2 and DOSE2 are indicated.

I made the list for my own edification, for workload planning, and to see where my duties lie with other teams. I have not attempted to do any "planning" for the CNWRA team members, but at the end there's the usual task list arranged according to YMRP chapters.

I hope that we will soon be able to discuss how we deal with the LA review.

Thanks,

Steve
