[Home](#) > [Regional Economic Accounts](#) > Local Area Personal Income

Local Area Personal Income

Step 1. Select a table

[AMSA](#)—Advance MSA personal income and compensation summary tables
[CA1-3](#)—Personal income, population, per capita personal income
[CA04](#)—Personal income and employment summary
[CA05](#)—Personal income and detailed earnings by industry
[CA06](#)—Compensation by industry
[CA25](#)—Total employment by industry
[CA30](#)—Regional economic profiles
[CA34](#)—Total wages, wage employment, average wage per job
[CA35](#)—Personal current transfers detail
[CA45](#)—Farm income and expenses
[CA91](#)—Gross Commuters' Earnings Flows
[Single Line](#)—Single line of data for all counties (more than 3000 rows returned; please limit years selected to speed process) for all counties

Step 2. Select SIC or NAICS industrial detail.

[CA25N NAICS \(2001-2006\)](#)
[CA25 SIC \(1969-2000\)](#)

Notes:

New estimates for 2006 and revisions for 2004-2005 were released on [April 24, 2008](#). These estimates incorporate newly available source data. Additionally population and per capita personal income estimates were revised back to the year 2000.

These estimates incorporate the [November 2007 update](#) to the OMB [metropolitan area definitions](#).

Help:

- ▶ Use the CTRL and/or Shift keys to select multiple areas and years. (In the Local Area Personal Income application multiple areas are not selectable; select one state and proceed from there, or select the "Single Line" option in Step 1.) Press *Display* to display your selection in HTML tables, and *Download* to download a comma-separated-value text file. If you select *Download* a "Save As" dialog box will appear. It is recommended that you specify an output filename with a CSV extension. Some users will have the option to open the downloaded file directly into a spreadsheet application.
- ▶ The greater the number of areas and years selected, the slower the request will be. A submission that requests too much information has the possibility of timing out. If you are displaying information, you will want to consider how large your table will be.
- ▶ To view county-level information first display a State.
- ▶ After displaying a table, you have the option to show one estimate for all counties and MSAs in that State by clicking on the line code next to the estimate.

Additional statistics

- ▶ Interactive Maps — The local area estimates in the above tables are also available in a mapping application, [Personal Income and Employment Interactive Map](#)
- ▶ Interactive Charts and Graphs — The local area estimates in the above tables are also available in a charting application, [Regional Economic Accounts Interactive Charts and Graphs](#)
