**SUBJECT: HONEYWELL REGULATORY COMMITMENTS AND CORRECTIVE
ACTIONS**

Dear Mr. Henson:

This letter is an update on the state of Honeywell's regulatory commitments. Since the previous update dated June 29, 2007, the facility has made additional progress in the commitments management, completion, and closing process. Thus, MTW currently has only one (1) open commitment versus four (4) open commitments at the time of the previous status update letter. The only open commitment listed below is scheduled for completion on November 30, 2009. Honeywell is providing necessary resources and expertise in the procedure development and management program and will be vigilant in its efforts to close this commitment by the target date.

Improvement Area	Item Number	Due Date	Description
LTIP Procedures & Policies	LT-28G	11/30/09	Improve Technical Procedures: Complete Major Revisions for UF6 Procedures / Policies (Phase II)

Please contact Mr. Larry Parscale at 618-524-6221 if you have any questions/comments or need additional information. Thank you for your attention and support.

Sincerely,

Mitch Tillman
