SUBJECT: NRC ACKNOWLEDGMENT OF ADDRESS CHANGE

Dear Lt. Col. Adams,

The NRC received your email on August 25, 2008, regarding the change in mailing address. Upon receipt, your mailing address was updated to the NRC Licensing Tracking System (LTS) database which contains licensee contact information. Since that time, your office has informed me that several permittees had received "*official use only – security-related information*," in lieu of your office, as the NRC license holder. I subsequently contacted the respective NRC office that maintains security information on a separate database. They have updated the contact information in their database to reflect the RIC's 24-hour cell number, unique RIC email address and the new mailing address information. This update should correct the contact information for the USAF RIC. If there continues to be problems regarding dissemination of information to the USAF RIC, please let me know.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

If there are any additional questions, please contact me at 817-276-6552 or by email at rachel.browder@nrc.gov.

Sincerely,

A handwritten signature in cursive script that reads "Rachel S. Browder".

Rachel S. Browder, Health Physicist
Nuclear Materials Safety Branch B
