Dear Messrs. Sanders and Moulding:

Pursuant to 10 CFR § 2.336 and the agreement between the parties as set forth in the Atomic Safety and Licensing Board's ("ASLB") Order of April 3, 2007 regarding mandatory disclosures ("April 3 Order"), Southern Nuclear Operating Company, Inc. ("Southern Nuclear") is providing the attached initial disclosures regarding Contention EC 6.0 admitted by the ASLB's Order of October 24, 2008. In order to compile the initial disclosures, Southern Nuclear conducted a search of the records in its possession, custody, or control (including its applicable affiliates and contractors). Attached is a supporting affidavit of Mr. Charles R. Pierce, Southern Nuclear's Vogtle Deployment Licensing Manager.

Southern Nuclear's initial disclosures for Contention EC 6.0 consist of the following:

- Documents and Data Compilations: Attachment 1 provides a description of documents and data compilations in the possession, custody, or control of Southern Nuclear (including its applicable affiliates and contractors) that are relevant to the admitted contentions, but that are not privileged, otherwise protected, or that have been previously served on the parties. Southern Nuclear is still in the process of reviewing each document identified in Attachment 1 to confirm whether or not they are relevant or contain proprietary or privileged information. We will make those final

determinations only as you request copies of specific documents. Thus, Attachment 1 may be over-inclusive in some respects in that it may include documents that are not discoverable based on 10 CFR § 2.336 or the ASLB's April 3 Order.

- Tangible Items: Attachment 2 is reserved for tangible items related to the admitted contentions. Southern Nuclear has not identified any tangible items related to Contention EC 6.0.
- Testifying Witnesses: Pursuant to the ASLB's Revised General Schedule Order issued October 24, 2008, contemporaneous with this filing, Southern Nuclear is also filing a Witness List that sets forth its current witnesses for Contention EC 6.0.

Southern Nuclear will first update these disclosures within fourteen (14) days as required by 10 CFR § 2.336(d), and the ASLB's April 3 Order.
