On November 20, 2008, NRC staff (Tanya Simms, Bob Fitzpatrick, and Om Chopra) participated in a telephone conference call with Duke representatives and observers (see below) regarding the staff's detailed review of the Lee Units 1 and 2 COL application. The purpose of the call was to discuss the responses to requests for additional information (RAI) #431, 665, and 666.

The discussion focused on the applicant's response related to GDC 2, 4, 5, 18 and the concern with battery chargers related to the reviewed in FSAR chapter 8.

At the conclusion of the call, Duke informed staff that they will review the information discussed and that Duke will contact the staff to discuss their findings. The NRC took a position to discuss with management possible actions that may come out of the discussion.
