Mark,

This is to document my phone conversations with David Distel of Exelon regarding letter NP-08-0018. David verified the letter was mailed from his office on Oct 28th. I called Jim McKnight and he asked if we could email a pdf copy of the letter to him and he will use that to alert his personnel to watch for the letter. Jim believes the letter may have been routed through the USPS facility that irradiates all incoming letters to government agencies. This would potentially delay delivery by several days.

Also, I have calls in to Kenny Nguyen regarding letters 0016 and 0017, but no response yet.
