November 24, 2008

## **NRC TO HOLD PUBLIC MEETING DEC. 1 TO DISCUSS REPORTING REQUIREMENTS FOR NUCLEAR POWER PLANT DECOMMISSIONING FUNDS**

The Nuclear Regulatory Commission staff will conduct a public meeting in Rockville, Md., on Monday, Dec. 1, to discuss issues related to a proposed Regulatory Issue Summary (RIS) 2001-07, REV.1 that clarifies reporting and record keeping requirements for nuclear power plant decommissioning funds.

The NRC staff will provide a brief presentation describing the RIS that informs nuclear power plant licensees of the need to distinguish funds accumulated to pay for radiological decommissioning from funds for other decommissioning costs, such as state decommissioning requirements and spent nuclear fuel management. Following the presentation, there will be an opportunity for public comments.

NRC staff will hold the public meeting in the Commissioner's Conference Room of the agency's One White Flint North building, at 11555 Rockville Pike. It will run from 8 - 11 a.m. A complete agenda and draft copy of the RIS is available on the NRC's Web site at: <http://www.nrc.gov/public-involve/public-meetings/index.cfm>.

The NRC provides reasonable accommodation to individuals with disabilities where appropriate. Anyone with questions or those wishing to make public statements during the meeting and to make your reservation to participate please notify the NRC's meeting contact: Aaron Szabo by phone at (301) 415-1985 or via email at [aaron.szabo@nrc.gov](mailto:aaron.szabo@nrc.gov).
