

December 1, 2008

LICENSEE: South Texas Project Nuclear Operating Company

FACILITY: South Texas Project Units 3 and 4

SUBJECT: SUMMARY OF PUBLIC MEETING HELD ON NOVEMBER 6, 2008, TO
DISCUSS REVISIONS TO CHAPTER 2 OF THE SOUTH TEXAS PROJECT
NUCLEAR OPERATING COMPANY'S, UNITS 3 AND 4 COMBINED LICENSE
APPLICATION

On November 6, 2008, the U.S. Nuclear Regulatory Commission (NRC) staff held a public meeting in Rockville, Maryland, with members of the South Texas Project Nuclear Operating Company (STPNOC). The purpose of this meeting was to discuss the plans to revise Chapter 2 of STPNOC's combined license (COL) application. This meeting was requested by STPNOC to brief the NRC staff on the structural and geotechnical content of the STP COLA Rev. 2, the scope of ongoing design activities and the STP schedules for ongoing work and plans for submittal.

STPNOC made a presentation on "Structural and Geotechnical COLA Status" (Agencywide Documents Access and Management System (ADAMS) Accession Number ML08331147). The presentation covered the revisions affecting the Geotechnical, Seismic, and Structural Analysis sections of the application within Chapter 2. Specifically, STPNOC discussed changes such as the reclassification of the radwaste building, the ultimate heat sink relocation, the excavation and dewatering plans, and the minimum shear wave velocity departure. The presentation also provided a status update on both the Request for Additional Information (RAI) submittals and previous Commitments that were made to the NRC with regard to supplemental information to be added to their application. At the conclusion of the presentation, NRC asked questions and held discussions about the information presented.
