

Memo

**FROM THE
UNITED STATES NUCLEAR REGULATORY COMMISSION
REGION 3**

**2443 WARRENVILLE ROAD, SUITE 210
LISLE, ILLINOIS 60532-4352**

FAX (630) 515-1078

**To: Jeffrey S. Penfield, Quality Control Manager
Location: Michigan Paving & Materials Company
Date: November 18, 2008
Subject: Additional Information**

Please provide the following additional information so that we may complete the review of your termination request.

- 1. The "Certificate of Disposition of Materials" dated September 4, 2008, stated that leak test results for the sealed sources were attached, however, these documents were missing from your request. Please submit a copy of the leak test results for the sealed sources that were current when the nuclear gauges were transferred to other companies.**
- 2. Please submit a copy of the acknowledgement letter from each company confirming that they received the nuclear gauges you transferred to them.**

Please submit your response to the above as additional information to VOIDED CONTROL 317479. We will resume our review upon receipt of your response. Please note, that a "void" is an administrative procedure that puts your amendment request "on hold" until you reactive it by a written response. It costs you nothing, gives you time to prepare a quality response, and is regarded as a "good thing".

Please contact me at 630-829-9839 if you have any questions.

From the desk of

Bill Reichhold
