

**United States of America
Nuclear Regulatory Commission**

Before the Secretary

In the Matter of
Calvert Cliffs -3 Nuclear Power Plant
Combined Construction and Operating License

Docket No. 52-016

**CORRECTED ERRATA OF JOINT PETITIONERS CLARIFYING INTERVENORS
AND STANDING**

Nuclear Information and Resource Services, Beyond Nuclear, Public Citizen, Southern Maryland Citizen's Alliance for Renewable Energy Solutions, here after referred to as Joint Petitioners, come forward to make the following correction in the Petition for Public Hearing and Leave to Intervene as filed on November 19, 2008 regarding to Calvert Cliff Unit 3 Combined Operating License Application.

Petitioners' Errata dated November 25, 2008 mistakenly identifies Southern Maryland Citizen's Alliance for Renewable Energy Solutions (SOMD CARES) as Southern Maryland Citizens for Affordable Renewable Energy Solutions, Southern Maryland Affordable Renewable Energy Solutions and Southern Maryland Affordable Renewable Solutions.

As is demonstrated by Exhibit 7, the signed declaration of Steven Warner correctly identifies the petitioning organization as Southern Maryland Citizen's Alliance for Renewable Energy Solutions.

All references contained in the Joint Petition to Request a Public Hearing and Leave to Intervene in the Calvert Cliffs Unit 3 Combined Operating License Application and the Errata of November 25, 2008 are requested to be changed so that the record will correctly read Southern Maryland Citizen's Alliance for Renewable Energy Solutions (SOMD CARES).

Respectfully Submitted,
_____/s/_____
