R.E. GINNA NUCLEAR POWER PLANT SUPPLEMENTAL INFORMATION -- NON-PROPRIETARY

Submitted income statements for R.E. Ginna Nuclear Power Plant (Ginna) show variations in income after tax for 2011, 2012 and 2013. While good practice dictates that we show the income as presented, there are several factors that provide a high degree of confidence that Ginna will remain in good financial health, while maintaining timely and sufficient access to working capital, to support both planned and unplanned needs:

1. Ginna is on an 18-month refueling cycle, which means every third year it does not have an outage. Thus, the two outage years are different from the non-outage year. In this case, the outage years are 2011 and 2012 and the non-outage year is 2013.
2. The Ginna operating expenses include allocated corporate overhead charges, which are expenses incurred at the corporate level that do not directly relate to operations at Ginna.
3. While projected operating cash flow for Ginna is positive in all years, the Constellation Energy Nuclear Group (CENG) companies (including Ginna) participate in a cash pool that the parent company, Constellation Energy Group, Inc., operates for the benefit of all its subsidiaries. The cash pool is intended to provide Ginna (and the other CENG companies) with the cash necessary to meet its day-to-day cash needs, including its obligations to protect public health and safety. Further, if the cash pool at any time cannot meet those needs, the CENG companies, including Ginna, maintain Inter-Company Credit Agreements with Constellation Energy Group, Inc. in accordance with prior NRC Orders approving license transfers. The amounts of funding available from the cash pool and the Inter-Company Credit Agreement for Ginna are sufficient to compensate for variations in income substantially greater than are anticipated.
4. During the period covered in the projected income statements, Ginna receives revenues from electric sales under a power purchase agreement with an external party. This agreement will expire in 2014.

AFFIDAVIT

I, Henry B. Barron of Constellation Energy Nuclear Group, LLC, for R. E. Ginna Nuclear Power Plant, LLC, do hereby affirm and state:

1. I am authorized to execute this affidavit on behalf of R. E. Ginna Nuclear Power Plant, LLC.
2. R. E. Ginna Nuclear Power Plant, LLC is providing information in support of the Constellation Energy Nuclear Group, LLC Application for Order Approving Indirect Transfers of Control of Licenses. The document being provided in Attachment (2) contains proprietary financial information and financial projections related to the ownership and operation of R. E. Ginna Nuclear Power Plant, LLC. This document constitutes proprietary commercial and financial information that should be held in confidence by the NRC pursuant to the policy reflected in 10 CFR §§ 2.390(a)(4) and 9.17(a)(4), because:
 - i. This information is and has been held in confidence by R. E. Ginna Nuclear Power Plant, LLC.
 - ii. This information is of a type that is customarily held in confidence by R. E. Ginna Nuclear Power Plant, LLC and there is a rational basis for doing so because the information contains sensitive financial information concerning projected revenues and operating expenses of R. E. Ginna Nuclear Power Plant, LLC.
 - iii. This information is being transmitted to the NRC voluntarily and in confidence.
 - iv. This information is not available in public sources and could not be gathered readily from other publicly available information.
 - v. Public disclosure of this information would create substantial harm to the competitive position of R. E. Ginna Nuclear Power Plant, LLC by disclosing its internal financial projections.
3. Accordingly, R. E. Ginna Nuclear Power Plant, LLC requests that the designated documents be withheld from public disclosure pursuant to the policy reflected in 10 CFR §§ 2.390(a)(4) and 9.17(a)(4).
