November 14, 2008

U.S. Nuclear Regulatory Commission
Attn: Document Control
Washington, DC, 20555-0001

Subject: Request for extension for response to RAI request (TAC No. L32659)

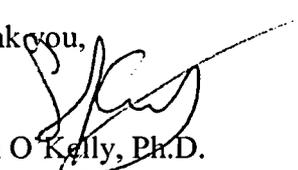

Ref: The University of Texas at Austin Materials License SNM-180, Docket 70-157

Sirs:

We respectfully request an extension of the time allowed to respond to the Request for Additional Information dated October 17, 2008 beyond 30 days. Although the majority of the information requested is fairly straight forward, detailed information required to fully comply with decommissioning and financial assurance will need sources from outside the NETL and these will require additional time. We request a time extension on TAC L32659 until January 29, 2009.

Please contact me by phone at 512-232-5373 or email sokelly@mail.utexas.edu if you require additional information or there is a problem with this request.

Thank you,

Sean O'Kelly, Ph.D.
Associate Director
Nuclear Engineering Teaching Laboratory
The University of Texas at Austin
