DOCKETED  
MAY 1 1957

U. S. Atomic Energy Commission  
Washington 25, D. C.

Att: Mr. Lyall Johnson, Chief  
Division of Civilian Application

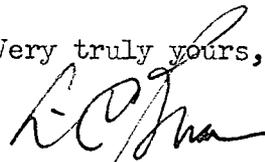

Gentlemen:

Subject: Application for Special Nuclear  
Material License - Docket No. 70-90

On April 22 we submitted supplementary information in connection with our application for special nuclear material license.

Among the items submitted was the design of a continuous evaporator, Drawing No. A-3336. This piece of equipment has now been modified in order to add an over-flow pipe to the vapor head. The drawing dated April 26, 1957, is therefore substituted for the drawing dated April 18.

Very truly yours,

Lawrence C. Burman
