Engelhard Industries, Inc.
D. E. Makepeace Division
Pine and Dunham Streets
Attleboro, Massachusetts

Attention: Mr. W. F. Altendorf

Gentlemen:

Reference is made to your letter of August 27, 1962, requesting cancellation of licenses SNM-185 and SUB-172.

By our letter of August 15, 1962, we requested that you submit to us a report indicating the levels of fixed and removable contamination existing in your facilities. On receipt of this information consideration will be given to cancelling the licenses. Please note that pipes, columns, ducts or other areas difficult to survey for built up contamination must be treated as containing special nuclear material and should be disposed of prior to termination of the special nuclear material license. Further, if you are unable to provide the previously requested report by September 15, 1962, you should request temporary renewal of SNM-185 to authorize your continued possession of the enriched uranium present as contamination.
