

Telecon March <sup>8</sup>~~7~~, 1963  
JG & L. C. Burman

Re: Submission of reports per DLR ltr 12/6/62

Burman not familiar with the  
program & referred caller to a  
Mr Mortimer who also was  
not familiar with the close-out  
procedure & report on contamination  
level. Mortimer will get hold  
of 12/6/62 ltr & check up  
on the report.

B/130

According to Ryan

this is more or  
less standard wording.  
We (AEC) would in any  
event have to present  
evidence that we had  
a just claim. We would  
go to Baker first and  
in the event that they  
would or would not  
pay us (bankruptcy) we  
would then go to the  
insurance company. The  
wording of the rider or  
binder does not permit  
~~us~~ to the insurance  
company to merely pay  
us because we ask.

# Memorandum

TO : R. Kirkman  
Director of Compliance  
New York

DATE:

FROM : Donald A. Nussbaumer, Chief  
Source and Special Nuclear Materials Branch  
Division of Licensing and Regulation

SUBJECT: ENGELHARD INDUSTRIES, INC., LICENSE SNM-98, DOCKET NO. 70-90.

DLR:JLL

On March 29, 1963, we transmitted to your office a copy of a letter dated March 20, 1963, from the subject licensee, in which they state their decontamination program has been completed and that arrangements were being made with Compliance Division, New York, for a close-out inspection.

Please inform us of the results of the inspection so that steps may be taken to cancel License SNM-98.
