Engelhard Industries, Inc.  
Pine and Dunham Streets  
Attleboro, Massachusetts

Attention: Mr. N. M. Weiss

Gentlemen:

The information contained in your letter of June 27, 1963, regarding the levels of uranium contamination remaining in your facility after completion of decontamination of the facilities and equipment, has been reviewed in connection with the activities performed under licenses SNM-185 and SUB-172.

As a result of this review, we have concluded that due to the insignificance of the contamination which may be present on equipment in this particular instance, no hazard to health and safety is involved and no license would be required for any person receiving or possessing such equipment or facilities.

Sincerely yours,

Director  
Division of Licensing and Regulation

B/136
