Attention: Mr. Lawrence C. Burman
Manager

Gentlemen:

The information contained in your letters dated November 30, 1962; March 20, October 21, 1963; and April 3, 1964, regarding the levels of uranium contamination remaining in your facility after decontamination of the facilities and equipment, has been reviewed in connection with the activities performed under License No. SNM-98.

As a result of this review, we have concluded that due to the insignificance of the contamination which may be present on equipment in this particular instance no hazard to health and safety is involved and no license would be required for any person receiving or possessing such equipment or facilities.
