Attention: Mr. E. F. Rosenblatt

Gentlemen:

Reference is made to your letter of December 5, 1958 with which you submit a description of your procedures and equipment for compliance with Section 70.24, 10 CFR 70.

Although the general description of your proposed radiation monitoring and alarm system, and the emergency procedures to be followed in the event of a radiation incident appear to be satisfactory, we cannot of course decide in detail until you have decided upon the type of instruments, their location in the processing areas and the detailed procedures by which they will be maintained and used. It is suggested that you further develop your plans and advise us within thirty days of the date you expect to have the equipment in operation.

Very truly yours,

J. C. Delaney
