SUBJECT  
Licensee activities at Murray Street site

SUMMARY

I called Tom to inquire about the time frame when the buildings at the Murray Street site had been demolished. He informed me that the buildings had been demolished during the time period of 1975 to 1977. Also he informed me that during the demolition of the buildings, the building materials were subjected to precious metal recovery operations and that the grounds were even mined for precious metals before being back filled with fill material.
