DECLARATION OF SUSAN CORBETT

Under penalty of perjury, I, Susan Corbett, declare as follows:

1. I am a member in good standing and Chapter Chair of the South Carolina Chapter of the Sierra Club..
2. I reside at 377 Rambling Road, West Columbia, South Carolina. My residence is located within 50 miles of the proposed site of the new Virgil C. Summer Nuclear Station Units 2 & 3, in Fairfield County, south Carolina, for which South Carolina Electric & Gas Company ("SC E&G") has submitted a combined construction permit and operating license application ("COLA") to the U.S. Nuclear Regulatory Commission ("NRC" or "Commission"). I use and enjoy natural resources between my home and the proposed nuclear plant site.
3. I am concerned that if the NRC grants SCE&G's COLA, the construction and operation of the proposed nuclear power plant could adversely affect my health and safety and the integrity of the environment where I live as well as my economic interests. I am particularly concerned about the risk of accidental

releases of radioactive material to the environment, and the potential harm to groundwater supplies and local surface waters.

4. In order to ensure that the licensing decision for the proposed nuclear power plant protects my interests in a safe and healthful environment, I have authorized the Sierra Club to represent me and my interests in any licensing proceeding and/or related rulemaking proceeding that concerns the safety and environmental impacts of the proposed nuclear power plant. I have also authorized Sierra Club to take any legal actions that are necessary to ensure that the licensing proceeding and the rulemaking proceeding are conducted fairly, efficiently, and in a manner that provides for the full consideration of all licensing issues that could affect my safety and the health of my environment.

I declare under penalty of perjury that the foregoing facts are true and correct and that any expressions of opinion are based on my best judgment.
