SUBJECT: CLOSURE OF INVESTIGATION (OI 4-2008-051)

Dear Mr. Blevins:

This refers to an investigation conducted by the Nuclear Regulatory Commission (NRC) Office of Investigations regarding activities at your Comanche Peak Steam Electric Station. Office of Investigations initiated the investigation to determine whether a) security officers willfully failed to implement Security Plan requirements to stop and search a vehicle selected for a random search, b) if security officers willfully failed to report a security officer's refusal to submit to a random vehicle search, and c) if a security officer willfully failed to comply with a random vehicle search.

Based on the evidence developed during the investigation, the three separate aspects associated with this investigation were not substantiated. The NRC plans no further actions related to alleged willful misconduct and considers this investigation closed. The NRC will determine whether any enforcement action related to this event is warranted during a scheduled baseline security inspection.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,

/RA/
