

December 22, 2008

Mrs. Melissa Hymel
Point Coupee Parish Library
201 Claybourne Street
New Roads, LA 70760

SUBJECT: MAINTENANCE OF REFERENCE MATERIALS AT THE POINT COUPEE
PARISH LIBRARY RELATED TO THE ENVIRONMENTAL REVIEW OF THE
ENTERGY OPERATIONS, INC. COMBINED LICENSE APPLICATION FOR
RIVER BEND STATION 3

Dear Mrs. Hymel:

This letter is a follow-up to our telephone conversation on October 30, 2008, concerning the maintenance of documents related to the environmental review for the River Bend Station Unit 3 combined license (COL) application by your library. These documents are related to the Nuclear Regulatory Commission (NRC) staff's environmental review and preparation of an environmental impact statement (EIS) for Entergy Operations, Inc.'s application for a COL at the River Bend Station site.

We appreciate your willingness to assist the public in participating in the COL application process for a new nuclear reactor. As discussed, your support would consist of providing shelf space in your reference section, available for the public review, of documents related to the NRC staff's environmental review of the COL application. Included with this package are one hard copy and one CD of the River Bend Station Environmental Report.

We will place the Point Coupee Parish Library on our distribution list for future correspondence and documents related to our environmental review. We request that you place these items on the reference shelf as they are received. For your convenience, we have provided an empty three-ring binder. We would like to the documents to be available for the duration of the review; approximately two years. These documents are for reference only and should not be circulated.

Thank you for your cooperation. If you have any questions, you can reach me at (301) 415-2828 or via email at Andrew.Kugler@nrc.gov or Jessie Muir at (301) 415-0491 or via email at Jessie.Muir@nrc.gov.

Sincerely,

Andrew Kugler, Environmental Project Manager
Environmental Project Branch 2
Division of Site and Environmental Reviews
Office of New Reactors

Enclosure: As stated
Docket No.: 52-036
