MEMORANDUM THRU COMMANDER, Walter Reed Army Medical Center (AMC) ALIN: Chief, Health Physics Office (COL Mark Melanson), Washington DC 20307-5001

FOR U.S. Nuclear Regulatory Commission, Division of Nuclear Materials Safety, Region I 475 Allendale Road, King of Prussia, PA 19406

SUBJECT: NRC License Amendment - Request for New Authorized User

1. This is to notify you that our Radiation Control Committee has approved CPT Eva Smietana, M.D., as an Authorized User for medical use under 10 CFR Parts 35.100, 35.200, 35.300, and 31 H. Dr. Smietana has been working under the supervision of COL Kevin Reilly, M.D., an authorized user, IAW with 10 CFR Part 35.25, since July of 2008. Our Radiation Control Committee approval memorandum. Dr. Smietana's credentials and applicable documentation are enclosed with this memorandum. We request the addition of Dr. Smietana to our USNRC Byproduct Material License (License # 16-03657-01). O3001748

- 2. This is to notify you that our Radiation Control Committee has also approved Michael M. Late, M.D., as an Authorized User for medical use under 10 CFR Parts 35.100, 35.200, 35.300, 35.500 and 31.11. Dr. Tate is under a long-term contract with our hospital and is currently the radiation safety officer and an authorized user on USNRC license 13-12367-01. Our Radiation Control Committee approval memorandum and a copy of the USNRC aforementioned license are enclosed with this memorandum. We request the addition of Dr. Tate to our USNRC Byproduct Material License (License # 16-03657-01).
- 3. The point of contact for this memorandum is the undersigned at (502) 624-0589.

MEMORANDUM FOR RCC

SUBJECT: RCC Approval of CPT Eva Simetana, M.D. and Michael M. Tate, M.D. as Authorized Users for Medical Use on IACH's NRC License

- 1. CPT Eva Smietana, M.D. is currently assigned to IACH's Department of Radiology and Michael M. Tate, M.D. is under contract to IACH's Department of Radiology and they are requesting RCC approval as Authorized Users for medical use. There approval and addition to IACH's US NRC License will authorize them to practice Nuclear Medicine studies using radiopharmaceutiocals and radioactive materials covered under 10 CFR Parts 35.100, 35.200, 35.300, 35.500 and 31.11 for uptake, dilution, excretion studies and diagnostic imaging purposes on the MEDDAC NRC License and DARA. Their credentials are attached. For CPT Smietana it is her letter of Nuclear Medicine Training Verification, letter of Diagnostic Radiology Certification, Medical School Diploma, and USNRC Form 313A (Preceptor Statement) and for Dr. Tate it is a copy of the USNRC license that he is currently on.
- 2 Please indicate your approval or disapproval by signing in the appropriate column below:

Confirmation # 5LAE46F9

f va Marie Smietana, MD 1826 Kilbourne Pl NW Washington, DC 20010

Dear Dr. Smictana

Lam pleased to inform you that you passed the oral examination held on May 31 to June 3, 2008. The American Board of Radiology grants you its Certificate in Diagnostic Radiology. This is a tenyear time-limited certificate. In addition, because you received the appropriate training to make you AU-Eligible and passed the NRC-related portions of the nuclear radiology section, you will receive the AU-Eligible designation on your certificate.

The certificate will be sent to the above address in approximately three months from our printer, Jim Henry, Inc. Your name will appear on the certificate as shown above. If you wish your name to appear differently or you have an address change, please notify the Board office in writing by July 02, 2008. Your name and demographic information will be included in a Directory published by the American Board of Medical Specialties. It is your responsibility to notify other local and state or national organizations of your certification.

Important information about your Maintenance of Certification process is enclosed. Please review it and respond as requested.

Personally and on behalf of the Board of Trustees of The American Board of Radiology, I wish to congratulate you for this distinguished achievement. You have accomplished one of the most significant milestones in your career.

Sincerely,

Gary J. Becker, MD

PART II - PRECEPTOR ATTESTATION

Note:

This part must be completed by the individual's preceptor. The preceptor does not have to be the supervising individual as long as the preceptor provides, directs, or verifies training and experience required. If more than one preceptor is necessary to document experience obtain a separate preceptor statement from each. (Not required to meet training requirements in 35 590)

By checking the boxes below, the preceptor is attesting that the individual has knowledge to fulfill the duties of the position sought and not attesting to the individual's "general clinical competency."

First Section

Check one of the following for each use requested:

For 35 190

Board Certification

√ Fattest that Eva M. Smictana, MD

has satisfactorily completed the requirements in

Name of Proposed Authorized User

10 CFR 35.190(a)(1) and has achieved a level of competency sufficient to function independently as an authorized user for the medical uses authorized under 10 CFR 35.100

OB

Training and Experience

I attest that

has satisfactorily completed the 60 hours of training and

Name of Proposed Authorized User

experience, including a minimum of 8 hours of classroom and laboratory training, required by 10 CFR 35.190(c)(1), and has achieved a level of competency sufficient to function independently as an authorized user for the medical uses authorized under 10 CFR 35.100

For 35 290

Board Certification

√ I attest that

Eva M. Smietana, MD

has satisfactorily completed the requirements in

Name of Proposed Authorized User

10 CFR 35 290(a)(1) and has achieved a level of competency sufficient to function independently as an authorized user for the medical uses authorized under 10 CFR 35 100 and 35:200.

OR

Training and Experience

i attest that

has satisfactorily completed the 700 hours of training

Name of Proposed Authorized Use:

and experience, including a minimum of 80 hours of classroom and laboratory training, required by 10 CFR 35.290(c)(1), and has achieved a level of competency sufficient to function independently as an authorized user for the medical uses authorized under 10 CFR 35.100 and 35.200.

Second Section

Complete the following for preceptor attestation and signature:

🗸 I meet the requirements below, or equivalent Agreement State requirements, as an authorized user for

35.190

35.290

35,390

√ 35,390 + generator experience

Requested Authorization(s) (check all that apply)

 \checkmark 35,300. Use of unsealed byproduct material for which a written directive is required

OR

- 35.300 Oral administration of sodium iodide I-131 requiring a written directive in quantities less than or equal to 1.22 gigabecquerels (33 millicuries)
- 35.300 Oral administration of sodium iodide I-131 requiring a written directive in quantities greater than 1.22 gigabecquerels (33 millicuries)
- 35 300 Parenteral administration of any beta-emitter, or photon-emitting radionuclide with a photon energy less than 150 keV for which a written directive is required
- 35 300 Parenteral administration of any other radionuclide for which a written directive is required

PART I -- TRAINING AND EXPERIENCE (Select one of the three methods below)

Training and Experience, including board certification, must have been obtained within the 7 years preceding the date
of application or the individual must have related continuing education and experience since the required training and
experience was completed. Provide dates, duration, and description of continuing education and experience related
to the uses checked above.

✓ 1. Board Certification

- a. Provide a copy of the board certification
- b. For 35 390, provide documentation on supervised clinical case experience. The table in section 3.c. may be used to document this experience.
- c For 35.396, provide documentation on classroom and laboratory training, supervised work experience, and supervised clinical case experience. The tables in sections 3 a , 3.b., and 3.c. may be used to document this experience.
- d. Skip to and complete Part II Preceptor Attestation
- 2. Current 35.300, 35.400, or 35.600 Authorized User Seeking Additional Authorization
- a Authorized User on Materials License

under the requirements below or

equivalent Agreement State requirements (check all that apply)

35 390

35 392

35.394

35.490

35.690

- b If currently authorized for a subset of clinical uses under 35,300, provide documentation on additional required supervised case experience. The table in section 3 c may be used to document this experience. Also provide completed Part II Preceptor Attestation.
- c. If currently authorized under 35 490 or 35 690 and requesting authorization for 35.396, provide documentation on classroom and laboratory training, supervised work experience, and supervised clinical case experience. The tables in sections 3.a., 3 b , and 3.c may be used to document this experience. Also provide completed Part II Preceptor Attestation.

35 392 Oral Nal-131 requiring a written directive in quantities less than or equal to 1.22 gigabecquerels (33 millicuries)

35 396 Oral Nat-131 in quantities greater than 1 22 gigabecquerels (33 millicuries)

Parenteral administration of beta-emitter, or photon-emitting radionuclide with a photon energy less than 150 keV requiring a written directive is required

Parenteral administration of any other radionuclide requiring a written directive

Supervising Authorized User must have experience in administering desages in the same desage category or categories as the individual

d. Provide completed Part II Preceptor Attestation.

requesting authorized user status

PART II - PRECEPTOR ATTESTATION

Note This part must be completed by the individual's preceptor. The preceptor does not have to be the supervising individual as long as the preceptor provides, directs, or verifies training and experience required. If more than one preceptor is necessary to document experience, obtain a separate preceptor statement from each.

By checking the boxes below, the preceptor is attesting that the individual has knowledge to fulfill the duties of the position sought and not attesting to the individual's "general clinical competency."

First Section

Check one of the following for each requested authorization:

For 35.390:

Board Certification

lattest that Eva M. Smietana, MD

has satisfactorily completed the training and experience

Name of Proposed Authorized User

requirements in 35 390(a)(1)

OR

Training and Experience

Lattest that

has satisfactorily completed the 700 hours of training

Name of Proposed Authorized User

and experience, including a minimum of 200 hours of classroom and laboratory training, as required by 10 CFR 35.390 (b)(1)

Preceptor Attestation (continued)

First Section (continued)

For 35.392 (Identical Attestation Statement Regardless of Training and Experience Pathway):

Lattest that

has satisfactorily completed the 80 hours of classroom

Name of Proposed Authorized User

and laboratory training, as required by 10 CFR 35 392(c)(1), and the supervised work and clinical case experience required in 35.392(c)(2)

For 35.394 (Identical Attestation Statement Regardless of Training and Experience Pathway):

Lattest that

has satisfactorily completed the 80 hours of classroom

Name of Proposed Authorized User

and laboratory training, as required by 10 CFR 35 394 (c)(1), and the supervised work and clinical case experience required in 35 394(c)(2)

Second Section

Lattest that

has satisfactorily completed the required clinical case

Name of Proposed Authorized User

experience required in 35.390(b)(1)(ii)G listed below:

Oral NaI-131 requiring a written directive in quantities less than or equal to 1.22 gigabecquerels (33 millicuries)

Oral Nal-131 in quantities greater than 1.22 gigabecquerels (33 millicuries)

Parenteral administration of beta-emitter, or photon-emitting radionuclide with a photon energy less than 150 keV requiring a written directive is required.

Parenteral administration of any other radionuclide requiring a written directive

Third Section

Lattest that

has satisfactorily achieved a level of competency to

hame of Proposed Authorized User

function independently as an authorized user for.

Oral Nal-131 requiring a written directive in quantities less than or equal to 1 22 gigabecquerels (33 millicuries)

Oral Nat-131 in quantities greater than 1.22 gigabecquerels (33 millicuries)

Parenteral administration of beta-emitter, or photon-emitting radionuclide with a photon energy less than 150 keV requiring a written directive is required

Parenteral administration of any other radionuclide requiring a written directive

Fourth Section

For 35,396:

Current 35.490 or 35.690 authorized user:

I attest that

is an authorized user under 10 CFR 35.490 or 35.690

Name of Proposed Authorized User

or equivalent Agreement State requirements, has satisfactorily completed the 80 hours of classroom and laboratory training, as required by 10 CFR 35 396 (d)(1), and the supervised work and clinical case experience required by 35 396(d)(2), and has achieved a level of competency sufficient to function independently as an authorized user for

Parenteral administration of any beta-emitter, or photon-emitting radionuclide with a photon energy less than 150 keV for which a written directive is required

Parenteral administration of any other radionuclide for which a written directive is required

OR

Board Certification:

Lattest that

has satisfactorily completed the board certification

Name of Proposed Authorized User

requirements of 35 396(c), has satisfactorily completed the 80 hours of classroom and laboratory training required by 10 CFR 35 396 (d)(1) and the supervised work and clinical case experience required by 35 396(d)(2), and has achieved a level of competency sufficient to function independently as an authorized user for

Parenteral administration of any beta-emitter, or photon-emitting radionuclide with a photon energy less than 150 keV for which a written directive is required.

Parenteral adminstration of any other radionuclide for which a written directive is required

Fifth Section

Complete the following for preceptor attestation and signature:

✓	I meet the requirements below.	or equivalent Agreement	State requirements,	, as an authorized use	r for
---	--------------------------------	-------------------------	---------------------	------------------------	-------

√ 35 390

√. 35.392

√ 35.394

Z 35 396

- I have experience administering dosages in the following categories for which the proposed Authorized User is requesting authorization
 - Oral Nal-131 requiring a written directive in quantities less than or equal to 1.22 gigabecquerels (33 millicuries)
 - √ Oral Nal-131 in quantities greater than 1 22 gigabecquerels (33 millicuries)
 - Parenteral administration of beta-emitter, or photon-emitting radionuclide with a photon energy less than 150 keV requiring a written directive is required.
 - ✓ Parenteral administration of any other radionuclide requiring a written directive.

10 CFR 35.300, 35.400 and 31.11.

The licensee is authorized to transport licensed material only in accordance with the provisions of 10 CFR Part 71, "Packaging and Transportation of Radioactive Material."

In addition to the possession limits in Item 8, the licensee shall further restrict the possession of licensed material to quantities below the minimum limit specified in 10 CFR 30.35(d) for establishing decommissioning financial assurance.

Except as specifically provided otherwise in this license, the licensee shall conduct its program in accordance with the statements, representations, and procedures contained in the documents, including any enclosures, listed below. This license condition applies only to those procedures that are required to be submitted in accordance with the regulations. Additionally, this license condition does not limit the licensee's ability to make changes to the radiation protection program as provided for in 10 CFR 35.26. The U.S. Nuclear Regulatory Commission's regulations shall govern unless the statements, representations, and procedures in the licensee's application and correspondence are more restrictive than the regulations.

- Application dated April 22, 2004, and,
- B Letter received October 21, 2004.
