SUMMARY

Peter and I ^{contacted} ~~contact~~ Ms. Hecht to communicate additional information that we need in order to approve the licensee's revised bioassay program as described in letter dated June 9, 2008.

We asked Ms. Hecht to submit a table of dose assessments based on excretion fractions in the urine of the four compounds that are used at ABC labs. These four compounds are: Barium carbonate, Benzene, Aniline, and Cyanide.

ACTION REQUIRED

Submit the above additional information and refer to C/N 317219
