SUBJECT: James A. FitzPatrick Nuclear Power Plant
Docket No. 50-333
License No. DPR-59

Revised Submittal Date for the Stress Analysis Summary for the N2C-SE
Weld Overlay

REFERENCES: 1) Entergy Letter to NRC, JAFP-08-0102, "James A. FitzPatrick Request
for Relief (RR-7 Revision 1) - Proposed Alternative to ASME Code
Requirements for Weld Overlay Repairs", dated October 1, 2008

Dear Sir or Madam:

Enclosure 2 of reference 1 documented a commitment to submit to the NRC, within sixty days of the completion of the Refueling Outage 18, a stress analysis summary demonstrating that the N-2C nozzle to safe-end dissimilar metal weld will perform its intended design function after weld overlay installation.

Due to concerns with the use of certain information contained in an EPRI Boiling Water Reactor Vessel Internals Project (BWRVIP) document, JAF will be submitting the stress analysis summary later than committed to in Reference 1. The stress analysis summary will be submitted no later than December 17, 2008, 70 days after the completion of the refueling outage.

There are no new commitments made in this letter

If you have any questions or require additional information, please contact Mr. Eugene Dorman, Acting Licensing Manager, at 315-349-6810.

Sincerely,

Eugene Dorman
Acting Licensing Manager
