Reference: UniStar Nuclear Energy Services LLC Combined License (COL)
Application

Dear Mr. Price,

The Maryland Emergency Management Agency (MEMA) is committed to participating in any further development of the emergency response plans, including any required field demonstrations for the UniStar Nuclear Energy Services LLC (UNES) proposed U.S. Evolutionary Power Reactor to be located adjacent to the Calvert Cliffs Power Station Units 1 and 2 in Lusby, MD. The state certifies that the proposed emergency plans are practicable, is committed to participating in any further development of the emergency response plans, including any required field demonstrations, if found to be needed, and will work with UniStar Nuclear to identify any needed changes to our current commitment to execute our responsibilities under the existing emergency response plans in the event of an emergency. Unistar is hereby granted permission to submit the Maryland Radiological Emergency Plan, Annex Q, as part of the license application. If you need additional information please contact Rick Woods at 410-517-5113.

Sincerely,

John W. Droneburg
Director
