**Subject:** RE: Tentative/Draft Harris Site Audit Schedule

Don,  
Schedule looks good to me. It's good that we have the specific site tour on Monday and the office work on Tuesday. That seems to meet both Cheryl Antonio's and my schedule. I don't think we need more than a day to go over the Health Physics issues. Thanks.  
Steve

**Subject:** Tentative/Draft Harris Site Audit Schedule

All,

Consider this the first draft of the daily schedule for the Harris site audit. Please review and provide me your feedback. I am working with Roger Dirkes, the PNNL Team Lead, to give you the flexibility to do and go where and when you need to but do give me any specifics you may have or that you are working with your PNNL counterparts to set up. At the same time, we know there are going to be the need for the hydrologist, ecologist, and one or two other disciplines to go over common areas or items in their Information Needs list. We have tried to set those cross-cutting items into one or two meetings during the audit.

Again, do provide me with your feedback. I will send this to Progress Energy later today, so keep in mind it is a work in progress. I am also attaching the preliminary assignment list.

Thanks,  
Don
