Subject: Review of the Combined License (COL) application for Shearon Harris Units 2 & 3

The Nuclear Regulatory Commission has begun the review of the Combined License (COL) application for Shearon Harris Units 2 & 3 in the southwestern corner of Wake County of North Carolina. A copy of the COL application including the Environmental Report can be found at <http://www.nrc.gov/reactors/new-licensing/col/harris.html> or can be provided to you on a DVD if requested. The simplified schedule for the NRC's environmental review is as follows:

Scoping Summary Report	Late November 2008
Draft Environmental Impact Statement	Late June 2009
DEIS Responses to Public Comments Finalized	Late November 2009
Final Environmental Impact Statement Issued	May 2010

Note that the NRC environmental review team is planning to conduct a public scoping meeting on June 10, 2008, and visit the proposed plant site during the week of July 14, 2008. EPA and NRC management have agreed that we should inform you and involve your regional staff in the COL reviews at the earliest opportunity. In that spirit, if one or two people from your Region 4 office would like to participate in the site visit with our team, please contact the NRC environmental project manager, Donald Palmrose at (301) 415-3803 or donald.palmrose@nrc.gov.

Donald Palmrose, PhD

Sr. Project Manager
