

PURPOSE (cont.) Each formal session will be preceded by an informal "open house" commencing one hour prior to each session for those who wish to attend. The open house will provide members of the public with an opportunity to talk informally, one-on-one with NRC staff. Members of the public may register to present oral comments at this meeting by contacting Mr. Stephen Lemont at (800) 368-5642, ext. 5163 or via e-mail at Fermi3.COLEIS@nrc.gov by January 6, 2009. Those who wish to make comments may also register at the meeting until 5 minutes prior to the start of each session. Individual oral comments may be limited by the time available, depending on the number of persons who register.

Mr. Stephen Lemont will need to be contacted no later than December 30, 2008, if special equipment or accommodations are needed to attend or present information at the public meetings.

CATEGORY 3:* These are Category 3 Meetings. The public is invited to participate in these meetings by providing comments and asking questions.

PARTICIPANTS:	<u>NRC</u> F. Cameron, Facilitator G. Hatchett, Branch Chief, NRO S. Lemont, NRO	<u>Members of the Public Who Register to Speak</u>

**AGENDA FOR PUBLIC SCOPING MEETING
RELATED TO THE FERMI NUCLEAR PLANT, UNIT 3
COMBINED LICENSE APPLICATION
ENVIRONMENTAL REVIEW**

Wednesday, January 14, 2009*

Afternoon Session 1:00 p.m. to 4:00 p.m. **
Evening Session 7:00 p.m. to 10:00 p.m. **

I.	Welcome and Purpose of Meeting	5 minutes	F. Cameron, G. Hatchett
II.	Overview of the Combined License Process	5 minutes	S. Lemont
III.	Overview of Environmental Review Process	15 minutes	S. Lemont
IV.	Public Comments	2 ½ hours	F. Cameron
V.	Closing	5 minutes	F. Cameron

*Public Scoping Meetings will be held on January 15, 2009 if the January 14, 2009 meetings are cancelled due to inclement weather.

**The NRC staff will host an informal open house one hour prior to each meeting. No comments on the scope of the environmental review will be accepted during the open house. To be considered, comments must be provided either at the transcribed public meeting (see agenda above) or in writing, as described in the *Federal Register* notice.

NUCLEAR REGULATORY COMMISSION

[Docket No. 52-033]

Detroit Edison Company Fermi Nuclear Power Plant, Unit 3 Combined License Application Notice of Intent To Prepare an Environmental Impact Statement and Conduct Scoping Process

Detroit Edison Company (Detroit Edison) has submitted an application for a combined license (COL) to build the Fermi Nuclear Power Plant, Unit (Fermi 3) at its Enrico Fermi Atomic Power Plant (Fermi) site, located on approximately 1,260 acres in Monroe County, Michigan, on Lake Erie, approximately 25 miles northeast of Toledo, Ohio and 30 miles southwest of Detroit, Michigan. Detroit Edison submitted the application for the COL to the U.S. Nuclear Regulatory Commission (NRC) by letter dated September 18, 2008, pursuant to Title 10 of the Code of Federal Regulations (10 CFR) Part 52. A notice of receipt and availability of the application, which included an environmental report (ER), was published in the Federal Register on Friday, October 17, 2008 (73 FR 61916). A notice of acceptance for docketing of the application for the COL was published in the Federal Register on December 2, 2008, 73 FR 73350. The purposes of this notice are (1) to inform the public that the NRC will be preparing an environmental impact statement (EIS) in support of the review of the COL application, and (2) to

[[Page 75143]]

provide the public with an opportunity to participate in the environmental scoping process, as described in 10 CFR 51.29.

In addition, as outlined in 36 CFR 800.8(c), "Coordination with the National Environmental Policy Act," the NRC staff plans to coordinate compliance with Section 106 of the National Historic Preservation Act (NHPA) with steps taken to meet the requirements of the National Environmental Policy Act of 1969, as amended (NEPA). Pursuant to 36 CFR 800.8(c), the NRC staff intends to use the process and documentation for the preparation of the EIS on the proposed action to comply with Section 106 of the NHPA in lieu of the procedures set forth on 36 CFR 800.3 through 800.6.

In accordance with 10 CFR 51.45 and 51.50, Detroit Edison submitted the ER as part of the application. The ER was prepared pursuant to 10 CFR parts 51 and 52 and is available for public inspection at the NRC Public Document Room (PDR) located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland 20852, or from the Publicly Available Records component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible at <http://www.nrc.gov/readingrm/adams.html>, which provides access through the NRC's Electronic Reading Room link. The accession number in ADAMS for

the ER included in the application is ML082730660. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS should contact the NRC's PDR Reference staff at 1-800-397-4209/301-415-4737 or by e-mail to pdr@nrc.gov. The application may also be viewed on the Internet at <http://www.nrc.gov/reactors/new-reactors/col/fermi.html>. In addition, the Ellis Reference & Information Center, Monroe County Libraries, located at 3700 South Custer Road, Monroe, Michigan 48161-9716 has agreed to make the ER available for public inspection.

The following key reference documents related to the application and the NRC staff's review processes are available through the NRC's Web site at <http://www.nrc.gov>:

- 10 CFR part 51, Environmental Protection Regulations for Domestic Licensing and Related Regulatory Function;
- 10 CFR part 52, Licenses, Certifications, and Approvals for Nuclear Power Plants;
- 10 CFR part 100, Reactor Site Criteria;
- NUREG-1555, Standard Review Plans for Environmental Reviews for Nuclear Power Plants;
- NUREG/BR-0298, Brochure on Nuclear Power Plant Licensing Process;
- Regulatory Guide 4.2, Preparation of Environmental Reports for Nuclear Power Stations;
- Regulatory Guide 4.7, General Site Suitability Criteria for Nuclear Power Stations;
- Fact Sheet on Nuclear Power Plant Licensing Process;
- Regulatory Guide 1.206, Combined License Applications for Nuclear Power Plants; and
- Nuclear Regulatory Commission Policy Statement on the Treatment of Environmental Justice Matters in NRC Regulatory and Licensing Actions.

The regulations, NUREG-series documents, regulatory guides, and fact sheet can be found under Document Collections in the Electronic Reading Room on the NRC webpage. The environmental justice policy statement can be found in the Federal Register, 69 FR 52040, August 24, 2004.

This notice advises the public that the NRC intends to gather the information necessary to prepare an EIS as part of the review of the application for a COL at the Fermi 3 site. Possible alternatives to the proposed action (issuance of the COL for Fermi 3) include no action, reasonable alternative energy sources, and alternate sites. As set forth in 10 CFR 51.20(b)(2), issuance of a full power license to operate a nuclear power reactor is an action that requires an EIS. This notice is being published in accordance with NEPA and the NRC's regulations in 10 CFR part 51.

The NRC will first conduct a scoping process for the EIS and, as soon as practicable thereafter, will prepare a draft EIS for public comment. Participation in this scoping process by members of the public and local, State, Tribal, and Federal government agencies is encouraged. The scoping process for the draft EIS will be used to accomplish the following:

- a. Define the proposed action that is to be the subject of the EIS;
- b. Determine the scope of the EIS and identify the significant issues to be analyzed in depth;
- c. Identify and eliminate from detailed study those issues that are peripheral or that are not significant;
- d. Identify any environmental assessments and other EISs that are being or will be prepared that are related to but are not part of the scope of the EIS being considered;
- e. Identify other environmental review and consultation requirements related to the proposed action;

- f. Identify parties consulting with the NRC under the NHPA, as set forth in 36 CFR 800.8(c)(1)(i);
- g. Indicate the relationship between the timing of the preparation of the environmental analyses and the Commission's tentative planning and decision-making schedule;
- h. Identify any cooperating agencies and, as appropriate, allocate assignments for preparation and schedules for completing the EIS to the NRC and any cooperating agencies; and
- i. Describe how the EIS will be prepared, including any contractor assistance to be used.

The NRC invites the following entities to participate in the scoping process:

- a. The applicant, Detroit Edison;
- b. Any Federal agency that has jurisdiction by law or special expertise with respect to any environmental impact involved or that is authorized to develop and enforce relevant environmental standards;
- c. Any affected Indian tribe;
- d. Affected State and local government agencies, including those authorized to develop and enforce relevant environmental standards;
- e. Any person who requests or has requested an opportunity to participate in the scoping process; and
- f. Any person who intends to petition for leave to intervene in the proceeding, or who has submitted such a petition, or who is admitted as a party.

In accordance with 10 CFR 51.26, the scoping process for an EIS may include a public scoping meeting to help identify significant issues related to a proposed activity and to determine the scope of issues to be addressed in an EIS. The NRC will hold two identical public scoping meetings for the EIS regarding the Fermi 3 COL application. The scoping meetings will be held at the Monroe County Community College's La-Z-Boy Center Meyer Theater, located at 1555 South Raisinville Road, Monroe, Michigan 48161, on Wednesday, January 14, 2009. The first meeting will convene at 1 p.m. and will continue until approximately 4 p.m. The second meeting will convene at 7 p.m., with a repetition of the overview portions of the first meeting, and will continue until approximately 10 p.m. Additionally, the NRC staff will host informal discussions during an open house for one hour prior to the start of each public meeting. In the event that the La-Z-Boy Center Meyer Theater is closed due to weather conditions on January 14, 2009, the open houses and scoping meetings would be held on Thursday, January 15, 2009, during the same hours as listed above. The meetings will be transcribed and will

[[Page 75144]]

include the following: (1) An overview by the NRC staff of the NEPA environmental review process, the proposed scope of the EIS, and the proposed review schedule; and (2) the opportunity for interested government agencies, organizations, and individuals to submit comments or suggestions on the environmental issues or the proposed scope of the EIS. No formal comments on the proposed scope of the EIS will be accepted during the open house informal discussions. To be considered, comments must be provided either at the transcribed public meeting or in writing, as discussed below.

Persons may register to attend or present oral comments at the meeting on the scope of the NEPA review by contacting Mr. Stephen Lemont or Ms. Michelle Moser by telephone at 1-800-368-5642, extension 5163 or 6509, or by e-mail to the NRC at Fermi3.COLEIS@nrc.gov no later than 5 p.m. EST on January 6, 2009. Members of the public may also register to speak at the meeting prior to the start of the session. Individual oral comments may be limited by the time

available, depending on the number of persons who register. Members of the public who have not registered may also have an opportunity to speak, if time permits. Public comments will be considered in the scoping process for the EIS. If special equipment or accommodations are needed to attend or present information at the public meeting, the need should be brought to Mr. Stephen Lemont's attention no later than 5 p.m. EST on December 30, 2008, so that the NRC staff can determine whether the request can be accommodated.

Members of the public may send written comments on the scope of the Fermi 3 COL EIS to the Chief, Rulemaking, Directives, and Editing Branch, Division of Administrative Services, Office of Administration, Mailstop TWB-05-B01M, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and should cite the publication date and page number of this Federal Register notice. To ensure that comments will be considered in the scoping process, written comments must be postmarked or delivered by February 9, 2009. Electronic comments may be sent by e-mail to the NRC at Fermi3.COLEIS@nrc.gov. Electronic submissions must be sent no later than February 9, 2009, to ensure that they will be considered in the scoping process. Comments will be made available electronically and will be accessible through the NRC's Electronic Reading Room link <http://www.nrc.gov/reading-rm/adams.html>. The NRC staff may, at its discretion, consider comments submitted after the end of the comment period.

Participation in the scoping process for the EIS does not entitle participants to become parties to the proceeding to which the EIS relates. A Notice of a hearing and opportunity to petition for leave to intervene in the proceeding on the application for a COL will be published in a future Federal Register notice.

At the conclusion of the scoping process, the NRC staff will prepare a concise summary of the determination and conclusions reached on the scope of the environmental review, including the significant issues identified, and will send this summary to each participant in the scoping process for whom the staff has an address. The staff will then prepare and issue for comment the draft EIS, which will be the subject of a separate Federal Register notice and a separate public meeting. Copies of the draft EIS will be available for public inspection at the PDR through the above-mentioned address and one copy per request will be provided free of charge. After receipt and consideration of comments on the draft EIS, the NRC will prepare a final EIS, which will also be available to the public.

Information about the proposed action, the EIS, and the scoping process may be obtained from Mr. Stephen Lemont at 301-415-5163 or by e-mail at Stephen.Lemont@nrc.gov.

Dated at Rockville, Maryland, this 3rd day of December 2008.

For the Nuclear Regulatory Commission.

Scott Flanders,
Director, Division of Site and Environmental Reviews, Office of New Reactors.
