

FEMA

DEC 10 2008

Mr. James Caldwell
Regional Administrator
U.S. Nuclear Regulatory Commission, Region III
2443 Warrenville Road, Suite 210
Lisle, Illinois 60532-4351

Dear Mr. Caldwell:

Enclosed is a copy of the final report for the August 27, 2008 Exercise and the October 9, 2008 Out-of-Sequence Drills of the off-site radiological emergency response plans site-specific to the Quad Cities Nuclear Power Station. The state of Iowa and the counties of Clinton and Scott participated during the exercise and drills. The report was prepared by the Federal Emergency Management Agency (FEMA) Region VII staff. Copies of the final report will be provided to the state of Iowa.

There were no Deficiencies identified. Eight Areas Requiring Corrective Action (ARCAs) were identified as a result of the exercise and drills. However, two were corrected following additional training and re-demonstration and are now closed. Based on the results of the exercise and drills, the off-site radiological emergency response plans and preparedness for the state of Iowa and the affected local jurisdiction, site-specific to the Quad Cities Nuclear Power Station, can be implemented and are adequate to provide reasonable assurance that appropriate measures can be taken offsite to protect the health and safety of the public in the event of a radiological emergency at the site. Therefore, the Title 44 CFR, Part 350, approval of the offsite radiological emergency response plans and preparedness for the state of Iowa, site-specific to the Quad Cities Nuclear Power Station, granted on March 26, 1986, will remain in effect.

If you have questions or concerns regarding the report, please contact Mr. Joe Schulte at (816) 283-7016.

Sincerely,

A handwritten signature in black ink, appearing to read "Richard Hainje".

Richard Hainje
Regional Administrator
