Mark,

As we discussed this morning, a formal letter will be going out next week advising all stakeholders of the change in project management responsibilities for the UNC Church rock Site., Gallup, NM.

I suggest that we first have a preliminary meeting between NRC and EPA to have an overall understanding of this project and our concurrent regulatory review moving forward. Thereafter we can schedule a technical meeting to discuss EPA's statistical objectives amongst all the stakeholders.

Looking forward to working with you on this project. Enjoy your day.

Larry, Roy, Mark,

Our statistician, Dennis Beal, completed his review of the two statistical objective packages for UNC.

I have attached EPA comments.,

Please let us know when your ready and we can schedule a call to discuss if needed.
