Dear Mr. Christian:

On November 5, 2008, Mr. Geoff Wertz of your staff provided information to the Nuclear Regulatory Commission (NRC) in response to an NRC e-mail request¹ dated November 5, 2008, regarding the implementation of programs related to Regulatory Issue Summary (RIS) 2005-26, "Control of Sensitive Unclassified Nonsafeguards Information Related to Nuclear Power Reactors." Your staff's response indicated that in November 2007, a process was implemented to review and mark correspondence addressed to the NRC consistent with RIS 2005-26 guidance, and that no document types were excluded from this process.
