Subject: Re: Draft Navy Environmental Assessment for review and comment

Ms. Bailey:

The Maryland Radiological Health Program (RHP) has carefully reviewed the draft Environmental Assessment for the Navy's Hypervelocity Gun Facility at Chesapeake Beach, Maryland and has no comments. However, we would appreciate if NRC would consider allowing RHP Health Physicist staff to accompany NRC inspection staff during a site visit of the facility. Should NRC grant this request please call Alan Jacobson at (410-537-4422 ajacobson@mde.state.md.us) with specific details.

Thanks

Ray Manley, Chief
Radioactive Materials Licensing Compliance Division
Radiological Health Program

Mr. Fletcher;

Last month I sent you a copy of this draft Environmental Assessment for the Navy's Hypervelocity Gun Facility at Chesapeake Beach, MD. The Navy wishes to descommission and remediate the facility now that they have discontinued the use of depleted uranium there. The Navy plans to retain the property.

Please review the EA and provide your comments or concurrence. I will then be able to publish the EA in the Federal Register and amend the Navy's Material License to allow them to begin work.

If you have any questions or if I can do anything to assist you with your review please call me at 864.427.1032. You can also fax any comments to 610.680.3497.

Thank you for your attention in this matter.
