Subject: Detroit Edison Company Submittal of Offsite Emergency Response Plans in Support of Combined License for Fermi 3
(NRC Project No. 757)

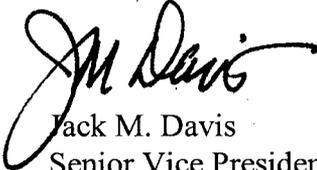

In the referenced letter, the Detroit Edison Company submitted an application for a combined license (COLA) for Fermi 3. During the Acceptance Review, the NRC staff informed Detroit Edison that three of the state and county offsite plans included in Part 5 of the Fermi 3 COLA were not current. Enclosed is a CD providing the current offsite emergency response plans for Monroe County, Wayne County and the Michigan Department of Environmental Quality (MDEQ).
