Southern Nuclear Operating Company
Vogtle Electric Generating Plant Units 3 and 4 Combined License Application
Contract for Disposal of High-Level Radioactive Waste

Ladies and Gentlemen:

Section 302(b) of the Nuclear Waste Policy Act of 1982, as amended, states "The Commission, as it deems necessary or appropriate, may require as a precondition to the issuance or renewal of a license under section 103 or 104 of the Atomic Energy Act of 1954 [42 U.S.C. 2133, 2134] that the applicant for such license shall have entered into an agreement with the Secretary for the disposal of high-level radioactive waste and spent nuclear fuel that may result from the use of such license." On November 5, 2008, Southern Nuclear Operating Company (SNC) signed contracts with the United States Department of Energy (DOE) establishing the terms and conditions applicable to the DOE's responsibility for disposal of spent nuclear fuel and high-level radioactive waste generated at proposed Vogtle Electric Generating Plant Units 3 and 4 (DOE contract numbers DE-CR01-09RW09005 and -09RW09006, respectively). SNC believes that these fully executed contracts fulfill any advance contracting requirement as may be imposed pursuant to Section 302(b) of the Nuclear Waste Policy Act of 1982, as amended.

If you have any questions regarding this letter, please contact Mr. Wes Sparkman at (205) 992-5061.
