SUBJECT: SEABROOK STATION, UNIT NO. 1 – RESPONSE TO REGULATORY ISSUE
SUMMARY 2005-26

Dear Mr. St. Pierre:

On November 7, 2008, Mr. Michael O'Keefe of your staff provided information to the Nuclear Regulatory Commission (NRC) in response to an NRC e-mail request¹ regarding the implementation of programs related to Regulatory Issue Summary (RIS) 2005-26, "Control of Sensitive Unclassified Nonsafeguards Information Related to Nuclear Power Reactors." Your staff's response indicated that in February 2008, a process was implemented to review and mark correspondence addressed to the NRC consistent with RIS 2005-26 guidance, and that no document types were excluded from this process. The e-mail request and subsequent response can be found in the NRC's Agencywide Documents Access and Management Systems Accession (ADAMS) Accession No. ML083380506.

The NRC appreciates your response and will use your staff's categorization of documents when profiling Seabrook Station, Unit No. 1 documents in ADAMS. The NRC may categorize documents different from your staff's categorization in accordance with agency procedures.

If you have any questions regarding this matter, I may be reached at 301-415-2443.

Sincerely,
