SUBJECT: HOPE CREEK GENERATING STATION AND SALEM NUCLEAR
GENERATING STATION, UNIT NOS. 1 AND 2 – RESPONSE TO
REGULATORY ISSUE SUMMARY 2005-26

Dear Mr. Joyce:

On November 3, 2008, Mr. Jeffrie Keenan of your staff provided information to the Nuclear Regulatory Commission (NRC) in response to an NRC e-mail request¹ dated November 3, 2008, regarding the implementation of programs related to Regulatory Issue Summary (RIS) 2005-26, "Control of Sensitive Unclassified Nonsafeguards Information Related to Nuclear Power Reactors." Your staff's response indicated that in December 2006, a process was implemented to review and mark correspondence addressed to the NRC consistent with RIS 2005-26 guidance, and that no document types were excluded from this process. The e-mail request and subsequent response are in the NRC's Agencywide Documents Access and Management System (ADAMS) at Accession No. ML083380506.

The NRC appreciates your response and plans to use your staff's categorization of documents when profiling Hope Creek Generating Station and Salem Nuclear Generating Station, Unit Nos. 1 and 2 documents in ADAMS. The NRC may categorize documents different from your staff's categorization in accordance with agency procedures.

If you have any questions regarding this matter, I may be reached at 301-415-1420.

Sincerely,

A handwritten signature in black ink, appearing to read "RBE Ennis".
